

# Auto Start Generator Control Panel

# Panelsource

## ENGINE & GENERATOR CONTROLS

### P4X275 SERIES

#### STANDARD FEATURES

- Dimensions: 14" (w) x 9" (h) x 8" (d)
- ABS UV protected corrosion proof cabinet and corrosion resistant hardware.
- 2% accuracy ammeter, voltmeter and frequency meter with required fusing
- Volts/Amps phase selector switch
- DeepSea 703 engine controller features manual and automatic operation. Safety shutdowns for low oil pressure, high water temperature, overspeed, underspeed, and overcrank. Two auxiliary inputs can be programmed to provide warning or engine shutdown. Two auxiliary outputs can be programmed to provide energize to stop, pre-heat, common warning, common alarm, common shutdown, and system in auto functions.
- Speed sensing via generator AC freq. only (75-277 Ph-N AC +20%)
- Premium VDO engine gauge package: oil pressure gauge, coolant temperature gauge, battery voltmeter, engine hourmeter and sender/switch combination
- Wired fuel relay, auxiliary relay and start solenoid
- Panel Includes: current transformers, vibration isolators, operations manual, and wiring schematics.
