

Star★Tron

Diesel Additive

8/16/32 oz.

Description: Revolutionary Enzyme Fuel Additive that improves engine performance, reduces emissions, eliminates carbon deposits and improves fuel efficiency. Also stabilizes diesel fuel for up to two years.

Options: 8 oz Diesel Treats **256 Gallons**
16 oz Diesel Treats **512 Gallons**
32 oz Diesel Treats **1,024 Gallons**

Special Order - 1 Gallon Diesel Treats 4,096 Gallons

Features: Star Tron disperses bacteria, allowing the fuel filtration system to function efficiently. Reduces all emissions, including carcinogenic particulate smoke. Prevents fuel oxidation and stabilizes diesel chemistry for at least two years. Lowers fuel system maintenance. Eliminates carbon build-up on injectors and exhaust components. Increases fuel economy, especially in older engines.

Eliminates water in diesel fuel by dispersing it to sub-micron size that can be safely burned off during combustion. Because it treats water in fuel, Star Tron prevents fuel gelling issues: with the moisture removed, it cannot be converted to ice crystals at low temperature that in turn can lead to fuel gelling. For severe low temperature applications, we recommend a pour-point depressant.
