

P9-1/2-EMCP3 CAT EMCP 4.2 Deep Sea 7310 Conversion Kit

Panel Features:

- Specifically designed to retrofit the CAT EMCP 3 or EM-CP4.2 controller. Non-proprietary controls allows for infinite control programming changes to suit the application or customer's needs. Wired and pinned directly to a CAT 70 pin connector for plug and play installation.
- Deep Sea controller with; 8 inputs, 8 outputs, 6 analog inputs, GEN sensing, CANBUS, ETHERNET, and MODBUS
- Front panel configurable. Full programmability and advanced configuration via included Deep Sea configuration suite software and included USB Standard (A) to (B) cable. External USB port provided on panel for easy field configuration.
- Generator Instrumentation and protection for all of the following; Volts, Hz, Amps, kW, kVA, kVAR, and PF.
- Engine Instrumentation and protection for all of the following: RPM, Oil Pressure, Coolant Temperature, Battery Voltage, Fuel Level, Engine Load . Magnetic Pickups available, but not included with panel.
- Panel kit Includes: PROGRAMMED PANEL, Wiring schematics. Programming cable, 70 pin conversion harness. Programming software available from www.deepsea.com

Additional Panel Options:

DSE2157: Output Expansion Module (8 Form C contacts)

DSE2130: Input Expansion Module (8 inputs)

DSE890: 3G Ethernet Web Gateway

DSE855: Ethernet Module

P6-8-DS: 8 Light Remote Annunciator

P6-16-DS: 16 Light Remote Annunciator
